## EXPERIENCE

**VSK LTECH LLP**                                                                                        **May 2025 - Nov 2025**
Software Developer                                                                                       *Noida, Uttar Pradesh*

- Contributed to MAUI (Multi-platform App UI) for cross-platform application development.
- Worked across macOS and Windows, resolving OS-specific issues including a complex File menu bug on macOS.

**Tata STRIVE**                                                                                          **Nov 2024 - Mar 2025**
Java Full Stack Developer                                                                                *Dwarka, Delhi*

- Developing expertise in Java, and leveraging technologies such as Spring Boot, Hibernate, ReactJS, MySQL, and HTML, CSS, and JavaScript for full-stack development.
- Building practical skills through project work, creating industry-standard full-stack applications.

## PROJECTS

**FileTech**  |  *MAUI*

- Participated in debugging and performance tuning across the full stack, from UI to database.
- Worked extensively with key libraries and frameworks including iText, iTextSharp, Aspose.word, Syncfusion, and others to enhance functionality and performance.
- Used SQLite for data storage and optimized queries for better performance and responsiveness.
- Played a key role in stabilizing the FileTech application, addressing performance bottlenecks and improving cross-platform reliability.

## EDUCATION
