SUMMARY

Enthusiastic and results-oriented software developer with a passion for coding and problem solving. Strong foundation in JAVA, XML, C++ and web development. I'm quick learner who is always eager to take on new challenges and learn new skills and a commitment to delivering high-quality work. I am confident that my skills and enthusiasm make me a valuable asset to your team.

WORK EXPERIENCE

Oasis Infobyte

Java Programming Intern • May 2023 - July 2023

- Here, I gained valuable skills in Java programming and also completed two projects, which demonstrated my ability to apply my skills to real-world problems.
- Developed a Number Guessing Game using Java, which allowed users to guess a randomly generated number between 1 and 100.
- Developed an ATM interface using Java, which allowed users to perform basic ATM transactions such as withdrawing cash, depositing money, and checking their balance.

PROJECTS

Portfolio website

HTML, CSS, JavaScript

- Designed and developed a clean and modern website using HTML, CSS, and JavaScript.
- Optimized website for speed and user experience.
- Utilized responsive design to ensure compatibility across all devices.
- Deployed on GitHub. ([link](#)).

News App

Flutter, Dart

- This app allows users to filter news by country and get news from news.org api. It has a simple and user-friendly interface, making it easy for users to find the news they are interested in.
- To read a news article, users can click on the headline of the article.
- This app is a great way to stay informed about the latest news from around the world. It is also a great way to learn about different cultures and perspectives.
- Deployed on GitHub. ([Link](#)).
