PROJECTS

PORTFOLIO WEBSITE

HTML, CSS, JavaScript

- Designed and developed a clean and modern website using HTML, CSS, and JavaScript.
- Optimized website for speed and user experience.
- Utilized responsive design to ensure compatibility across all devices.
- Deployed on GitHub pages via GitHub Actions.

ADVANCED CALCULATOR

Java, XML, SQLite

- The advanced calculator project offers a range of features, including a scientific calculator, unit converter, and standard calculator.
- The intuitive XML-based GUI ensures easy navigation and interaction.
- SQLite is used as the backend database system, enabling effective storage and retrieval of data.
